New Zealand - Destination to Study... Work... Migrate !!

New Zealand, a beautiful and unique country in the South Pacific, where exciting things are happening in Education. New Zealand is becoming the first choice for an increasing number of international students seeking quality education & to explore new ideas in pioneering programmes that will put them at the front in the world job markets of the future.

New Zealand universities, colleges and other New Zealand education institutions offer students a unique learning environment. This is supported by an integrated education system in which students attending New Zealand schools find it easy to make the transition to the next level of education

Why Study In New Zealand ?

- **QUALIFICATIONS GLOBALLY RECOGNISED.**

Students who have studied are earning a reputation of being called innovative thinkers and are being addressed as “The New World Class”. It has a progressive education system with state of art facilities. Qualifications are internationally recognized. There are wide range of study opportunities, including state administered primary, secondary schools, universities, polytechnics, colleges of education and private training establishments. The NZQA assures the quality of programme offered by state institutions and a private establishment, which in turn ensures that programmes offered in New Zealand, maintain international recognition.

- **EQUALLY STRONG FOCUS ON ACADEMICS AND WELFARE.**

Most of the universities have been taking International students for the last 50 - 60 years and hence have gained a multicultural/national perspective offering a balanced curriculum which finds relevance in work places around the world. The same perspective enables it to offer excellent welfare services to students from around the world. The polytechnics in NZ are known for the programs which are “Ready to Enter the Job Markets”.

- **“BEST OF BOTH WORLDS” QUALIFICATIONS.**

The best thing about studying in NZ is that the expenses involved are comparatively less than the other major destinations viz. USA, UK, Canada or Australia. In fact it is almost 50% less than that of USA and UK. Coupled with the lesser costs and International recognition of its qualification, NZ essentially offers "Best of Both Worlds" qualifications. Kiwi Life : Even though the country might be small the people think big. The people popularly known as Kiwi's are renowned for their hospitality and their love for sports and the outdoors.

- **MIGRATION AND JOB SEARCH OPPORTUNITY.**

Students are given a visa to search for a job after completion of their course and also have a good opportunity to Migrate. Get 2-3 yrs post study work Visa.

- **ENGLISH WIDELY SPOKEN.**

As English is the day-to-day language in NZ, Indian students find it very easy to study, live and interact in NZ. Moreover the NZ accent is easy to understand.

- **EXCELLENT CLIMATIC CONDITIONS.**

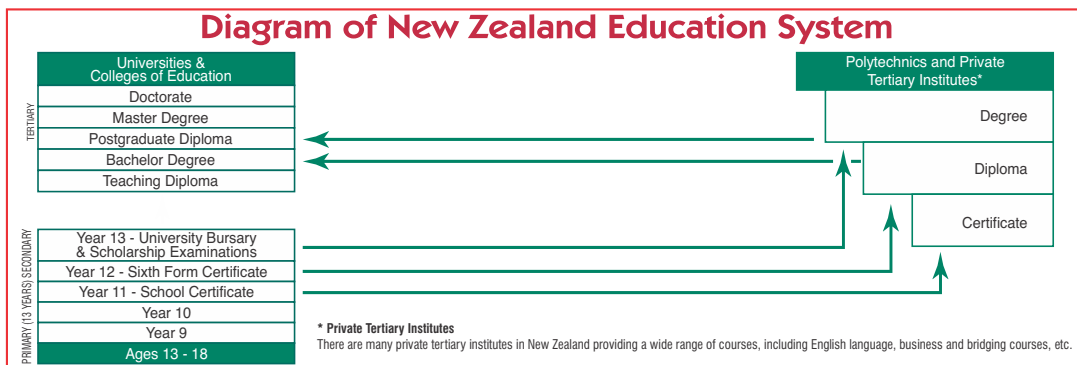

New Zealand enjoys temperate climate which is moderated by the sea's surrounding it. This-results in mild summers and cool winters. This excellent climate encourages all sorts of outdoor sports and activities. One can indulge in sports as varied from Football, cricket to White water rafting and Bungee jumping. In fact it is widely accepted fact that NZ enjoys one of the most favorable climates in the world. It enjoys the four distinct seasons, viz, Summer (Nov. to March), Autumn (March to June), Winter (June to Sept.) & Spring (Sept. to Nov.) & hence people enjoy high quality living conditions.

- **CLEAN, GREEN AND SAFE COUNTRY.**

New Zealand offers a safe learning environment. It is the first country in the world to declare itself as a nuclear free zone. The environment is green, clean and uncrowded with small populations and wide open spaces.

- **CODE OF PRACTICE.**

A code of practice ensures protection of international student's welfare by all education providers came into force in 2002. Only signatories to the code will be allowed to enroll international students. Ensuring that New Zealand education providers act fairly and reasonably when recruiting students, the Code affirms prospective students that they can trust the institution in which they choose to enroll.

● Quality Assurance

To ensure that both the Government and individuals are investing in quality education, training and assessment, the Government has set up nationally recognised processes of quality assurance. There are a number of government appointed bodies responsible for approving qualifications in New Zealand and for the quality that determines the delivery of qualifications. These bodies are :

New Zealand Qualifications Authority (NZQA)

responsible for approving and registering all courses and national qualifications offered at polytechnics and private training establishments.

New Zealand Vice-Chancellor's Committee (NZVCC)

responsible for approving all diplomas, undergraduate and graduate programmes offered by New Zealand universities.

● Universities in New Zealand

University education was established in New Zealand in 1870 and has a similar tradition to the British university system. There are eight state-funded universities in New Zealand, all of them internationally respected for their academic and research performance. In addition to a centrally co-ordinated system of quality assurance audits at both institution and programme level, each university undertakes internal quality checks. All New Zealand universities offer a broad range of subjects in Arts, Commerce and Science. Each has developed its own specialist subjects such as Medicine, Engineering, Veterinary Science, Computer Studies, Agriculture and Environmental Studies, Sports-Science, Biotechnology, Architecture etc. Bachelor's, Masters and Doctoral degrees are offered by all New Zealand universities. A range of under graduate and postgraduate diplomas is also available, along with honour programmes (usually requiring an additional year of study).

● Institute of Technology and Polytechnics (Te Pūkenga)

Te Pūkenga - New Zealand Institute of Skills and Technology is the largest vocational education provider in New Zealand. These Polytechnics, and Institutes of Technology, are state funded and provide education and training at all levels ranging from introductory studies through to full degree programmes. A few of them offer PG programmes as well. Polytechnics and Institutes of Technology are efficient tertiary providers offering programmes which can be both academically and vocationally focused. Due to their active engagement with industry, employers and government agencies they provide programmes which are of a high academic standard and are relevant to the rapidly changing workforce on a global basis. Polytechnics offer diverse courses like Arts and Design, Travel & Tourism, Hospitality etc.

● Private Degree Providers

In 1989, amendments to the Education Act in New Zealand enabled the private tertiary sector to award degrees through the New Zealand Qualifications Authority (NZQA). The key to the legitimacy of the private degree providers is their relationship with the NZQA which has a responsibility for course accreditation. The mission of the private degree providers is to provide a quality service to their students and a range of skills of value in the work environment.

● PTE's - Private Training Establishments

Private Training Establishments are registered and their courses approved by NZQA. Institutions and schools in this sector provide a range of courses including English language, aviation flight training, air traffic control, english, business computing, dance, design and arts, religious studies, travel and tourism and training for the hospitality industry.

● Undergraduate Study in New Zealand

At most New Zealand universities the course of study for a Bachelor's degree consists of a prescribed number of units, papers or courses. In each subject there are usually first-year (stage 1 or 100—level), second-year (stage 2 or 200 level) and third-year (stage 3 or 300 level) courses. A second year course may be commenced only after prescribed passes in the subject at stage 1 and a third-year course only after required passes in the subject at stage 2. In each subject the student is required to attend a given number of lectures, tutorials and/or laboratory periods per week. In some courses field trips provide opportunities for on-site study of natural phenomena or social processes. These learning contacts are supplemented by personal reading and research. Students are expected to develop independent study skills with minimum professional supervision. Grades given in tests, assignments and practical work count towards the final grade for a course. Most courses have a final written examination held either at mid-year (June) or the end of the academic year (October/November).

● Post Graduate Study in New Zealand

The first degree a student is able to gain in New Zealand is as elsewhere, a Bachelors degree. With a completed Bachelor's degree, a graduate may be able to go on to a Masters degree. These degrees may be awarded with Honours, an indication both of the challenge the course presents and of the student's achievement in it.

Graduate Diploma

A one-year, full-time course of study for graduates. It does not always require its students to have prior learning or experience in the subject matter of the diploma.

Postgraduate Diploma

A one-year full-time study, designed for graduates, which builds on the subject matter in the academic field of the previous degree.

Master's Degree

The Master's degree is open to those who have completed a Bachelors degree. The course of study is usually of 1-2 years full-time study or its equivalent in part-time study. The work required normally builds upon the prior knowledge gained in the major part of the Bachelor's degree, and most or all of it is in that discipline. It is at a more advanced level. That is normally reflected in the content of the work; in the mode of teaching which is likely to emphasise seminar presentation; and in provision of research experience for the candidate. A thesis is an account of a substantial piece of research. Many master's degrees include a thesis component, and in some cases, particularly those which are taken after a four-year Bachelors (Honours) course, the degrees may be thesis-only. However increasingly Masters' degrees by papers, or papers plus research, are becoming available. The successful student is expected to show, as the title implies, a real grasp of the subject, demonstrated by an understanding of the discipline, a capacity to reflect upon it, and an ability to undertake research into it.

● Doctorate

New Zealand Doctoral Research scholarships are a significant educational opportunity. Doctorate programmes generally take at least 3 years of full time study to complete. It is a fully research based degree. PHD students pay domestic tuition fee which is a 'benefit' of fee difference from international fees to domestic fees'. Scholarships are also awarded to the students on the basis of academic merit and research ability by the university. The scholarships of doctoral degree by research are available in New Zealand universities. The scholarship funding covers international tuition fee, a monthly living allowance, travel, health, insurance, books and thesis allowance.

● Academic Year

The academic year is from mid / late February to early November and most Universities have 2 semesters with a holiday of 4 weeks in June. Each University operates on slightly different dates and some also offer summer school in the main holiday period in November to February. Intakes are February, May, July and sometimes in September for some Universities. Polytechnic offers multiple intakes.

● Application Procedure

New Zealand mainly has 2 intakes. i.e. Feb. & July. It is suggested that you should start making applications in the month of August for the Feb intake. Universities generally take around 6 weeks to process an application and immigration services take around 6 weeks for the Visas. Documents needed for making an application are resume, statement of purpose, marksheets & certificates of X, XII, till Graduation or relevant degree transcripts in specific cases, Certificates of extra curricular activities and passport copy / birth certificate & 2 reference letters from colleges & employers.

● English Language Requirements

All students must be fluent in the English language, if they are to succeed at university in New Zealand. There are many courses available at public and private institutions in New Zealand and elsewhere to assist international students reach the required level of English language competence. We can recommend a waiver of IELTS / PTE wherever possible. A band of 6.0/6.5 for undergraduate & 6.5 / 7.5 for postgraduate courses is desirable.

● Accommodation

Most educational institutions in New Zealand will assist you in finding accommodation while studying in New Zealand. There are various types of accommodation which are available to international students. These are like Halls of Residence / Students Hostel, Homestay, Apartments / Flats. All students on finalising institution, should refer to its website for accommodation arrangements.

● Health Insurance

It is strongly recommended that all international students obtain medical insurance cover because most temporary students are not entitled to publicly funded health services while in New Zealand. A condition of your student visa is that you must have an adequate allowance and this should include coverage of medical costs. It is costing generally between NZ\$ 500 - NZ\$ 600.

● Student Visa

Student Visa: INZ is the sole agency of the NZ Government responsible for migration & entry to NZ. Student visa is required to enter the country to study a course more than 3 months duration, also the course opted should be offered by education institutions approved & registered with NZQA. Student is issued a visa for One year duration could be & easily extended being in New Zealand as per the further duration of course. Visit our Visa counselor for personal guidance & documentation requirement for student visa. You can only get a student visa to study in a course at an education institution, which is registered and approved by the NZQA. Your student visa will be issued for the length of time your course tuition fees have been paid. You must pay your tuition fees in advance for the University to send you an official receipt and the Offer of Place Certificate, which also guarantees that accommodation will be available, which are required with your visa application. Acceptance by the University does not Guarantee that a student will be issued a student visa by the immigration authorities. Student visa and permit information and application forms can be obtained from any New Zealand Immigration Service branch office within New Zealand or overseas (contact the nearest New Zealand High Commission). You can also obtain all relevant information and forms from the New Zealand Immigration Service website, www.immigration.govt.nz However visit your Edwise counselor for personal guidance and the latest checklist.

● Tuition fees

New Zealand provides high quality courses with a high standard of living at lower cost than Australia, UK, and USA. The costs below will give you an idea of how much spending money you will need in New Zealand as it can vary from city to city. Tuition fees vary from programme to programme.

Under Graduate Programmes

Arts / Humanities / Social Science / Commerce / Administration Management -
Computing / Mathematical Science -
Engineering & Technology -

Tuition fees (per year)

20,000 - 45,000 NZ\$
29,000 - 40,000 NZ\$
29,000 - 45,000 NZ\$

Post Graduate Programmes

Arts / Humanities / Social Science -
MBA & other Management programs -
Engineering -

Tuition fees (per year)

25,000 - 45,000 NZ\$
28,000 - 57,000 NZ\$ Onwards
30,000 - 48,000 NZ\$

(1NZ\$ = ₹ 50.00 at the time of print)

● Living Expenses

Students can choose from Halls of Residence, Students Hostels, Dormitories, Homestay private apartments and flats. NZ\$ 20,000 Per annum. This includes food, clothing, transport, entertainment and accommodation. Visa authorities expect a provision of NZ\$ 20,000 towards living expenses.

● Employment

International students enrolled in a tertiary programme of study are eligible to work up to 20 hours per week during the academic year. Students can work full time (40 hrs) in New Zealand only during the summer holidays. The average wage for part time jobs is between approx. 18 - 20 NZ\$ per hour. International students who have graduated from a course in New Zealand that would gain points under the Skilled Migrant Category may apply for a grand job search visa. Eligible student's partner may apply for a work permit, valid for the duration of the study course.

● Industry

NZ industries work side by side to encourage and sustain the economic activity and the benefits it brings to the people of NZ. Over 60% of NZ GDP is generated by services. This includes: The computer software development industry, film, television and commercial production industry, services like banking, finance, advertising, property, tourism & hospitality, and food processing. The manufacturing sector has shown strong export performance growth, which has encouraged investment and employment growth.

● Bank Loans

Bank loans are available for higher studies. Educational loan is approved on the basis of collateral security in the form of property, fixed deposit, Insurance etc. Interest varies from bank to bank.

● Financial Assistance

Funds are required for living (rent, food, transport, etc) and course costs (books and research expenses including international literature searches and data collection) in addition to tuition fees. If you need additional financial support to your own or family resources, there are a number of possibilities worth exploring. Note that application for funding is a separate operation to applying. You may receive admission to study but not be successful in your application for funds. You will not be granted a scholarship without admission.

These scholarships and funding sources are available:

- Scholarships offered by the New Zealand Government for Students from developing countries. These Overseas Development Assistance (NZODA) Postgraduate Scholarships cover airfares, accommodation and living expenses, as well as tuition fees. Please note that the number of scholarships awarded are very limited, and only students with exceptional grades will be considered. Application forms are available from the University International Centre or your New Zealand Diplomatic post.
- NZAID (New Zealand's International Aid and Development Agency) is New Zealand's agency responsible for international assistance to developing countries. NZAID support for basic, post basic and tertiary education includes financial & technical assistance to strengthen existing higher education institutes and systems and the provision of scholarship for study in home country, regional and New Zealand institutions. NZDS, the programme under NZAID are for full time multi year courses in New Zealand for tertiary level studies through the public and open category. NZDS scheme covers tuition, orientation fees, economy fare, travel, a basic living allowance with the provision for accommodation expenses (paid through study institutes). Students from India can apply for NZDS open (via universities) categories.

● Future Scope:

New Zealand Education is a strong pathway leading to a migration opportunity:

- All students successfully completing a 2 yrs duration Diploma, Degree, PG course or course under the skilled shortage list gain Points towards **Skilled Migrant** category, for **Permanent Residency**.
- Any student gaining points for Skilled Migrant category as mentioned above can apply for a **Job Search Visa** of 3 year where they can express for permanent residency.
- On gaining a Job offer within the period of Job Search, the student can either apply for a 2 year Work Permit or Permanent Residency depending on their eligibility for SMC.
- Requirement of 2 years work experience is waived off if the student has a NZ qualification.
- Spouse of the students going for masters courses or for courses listed in immediate or long term skill shortage could accompany on a work permit.
- New Zealand Permanent Residency holder enjoys many benefits like subsidized tuition fees for higher education, low interest rates & easy loan facilities, Traveling to any Euro national country becomes very easy & many other benefits (refer www.immigration.govt.nz).

Occupations which are under Immediate or long term skill shortage list.

Frequently Asked Questions ?

- WHAT IS THE TIME FRAME FOR THE ADMISSION & VISA PROCESS ?**
 Undergraduate applications are generally assessed quickly in 3-5 weeks time where as PG applications could take 4-8 weeks for processing. Visa procedures for New Zealand are quick, where New Zealand Information Service supports decision of positive profile students in 10-15 working days.
- WHAT ARE THE PART TIME WORK OPPORTUNITIES FOR STUDENTS & HOW MUCH CAN THEY EARN ?**
 Students are allowed to work part time upto 20 hrs per week. Most students work in Restaurants, Farms, Malls, Marketing Executive's etc. Wages will range from 15-17 NZ\$ approx.
- WHAT ARE THE ACCOMODATION ARRANGEMENTS ?**
 Some institutions may be able to arrange residential accommodation for students who are not staying with relatives or friends. However, you may wish to arrange accommodation for yourself. You should indicate whether or not you want assistance in finding accommodation when you apply to the institution.
- ARE DEPENDENTS ALLOWED TO COME ALONG ?**
 Your dependants, who may include a spouse, de facto spouse, fiance(e), and children, may accompany you to New Zealand or join you later. They must apply for and meet the normal requirements for the type of visa required (visitor, work, or student). School aged dependants will be required to pay full fees for enrolment in primary and secondary courses of study.
- I HAVE GOT A STUDENT VISA AND MY SPOUSE WANTS TO ACCOMPANY ME TO NEW ZEALAND. CAN HE / SHE APPLY FOR A WORK VISA?**
 Your spouse can apply for a work visa only if you are doing a master's course in NZ or you are studying a course towards qualifications in Long term Skill Shortage List.
- WHEN WILL I GET MY 1-3 YEARS JOB SEARCH VISA?**
 You are eligible to apply for 1-3 years job search Visa within 3 months of the date of completion of your course in NZ.
- WHAT WOULD BE MY NEXT VISA STATUS AFTER JOB SEARCH VISA?**
 If you get Job offer in your relevant area of study then your visa status could be converted to Work Permit or Permanent Residency on your Eligibility based on the Skilled Migrant Category at that time.

- 1.2% Indian
- Total Population 4.2 Million

*Conditions Apply

The Directors have lived, worked and studied abroad and undergone specialised training at various universities around the globe. Some of our counsellors have worked and studied abroad. Further our counsellors have been trained by international experts to guide students professionally in selecting the right course at the ideal university.

Testimonials of Students sent by Edwise International

"I am truly indebted to Edwise International for having been the perfect bridge from where I was to where I am today. The guidance I received from Edwise has been invaluable. Today, being equipped with the right degree scored from a wonderful university and importantly having secured a well paid job in New Zealand, I can only have appreciation and gratitude towards Edwise. Also, there certainly is a special mention for my counsellor for the tremendous support with a friendly attitude. I would recommend Edwise as a 'reliable resource' to anyone who aspires to walk the path I've taken."

Ashish Ramakrishnan
PG Diploma Management System
- Waikato University

Dear Everyone,

It has been a remarkable learning experience where I have been able to grasp the points of dealing with International Admission. My expectations were not only met, but exceeded when it came down to the crunch issues of admissions and visa approval. The staff at Edwise are a warm, caring and a thoroughly professional lot. My experience can be summed up in one word "Wonderful". I was never left wanting more. I would strongly recommend any aspiring student to, at least, have a chat with any of the counsellors at Edwise, they will always exceed expectations !

- Ms. Jesal Ashar
M Phil
Auckland University of Technology

Dear Sir/Madam,

I was very pleased with the service offered by Edwise International. I will like to thank the staff for their Outstanding support. Edwise has given me a new prospect in my career. I believe this organisation goes on and on supporting millions of deserted students like me who would surely get misguided unless there is someone like Edwise to shelter them.

In one line, Terrific Job, Keep it Up.

- Megdutt Bhamacharey
Postgraduate Diploma in Computer Science
Massey University

Dear Future Students,

Edwise has helped in every nook & corner because of which thinking about dreams coming true can be made possible.

Thanks to the visa officer and the counsellor for their dedicated support and commitment.

- Miss Harshal Ravindra Mahadik.
PG Diploma in Hotel Mgmt.
Pacific International

Edwise was great. My counsellors were very friendly. They helped me with everything from the admission to visa and accommodation. The perfect choice for those who wish to study in New Zealand.

- Asmita Mahire
Bachelor of Business and Information Management
Manukau Institute of Technology

Very good service, they are very helpful. The counsellors and the visa counsellors are very good at their job and they go out of their way to help students.

The whole team is excellent at their Job.

- Samantha Mascarenhas
Early Childhood Education
Auckland University of Technology.
